

Hello and thank you for considering my services.

I am Nikola, an experienced e-commerce developer with over three years of experience in creating professional and high-converting websites. I have had the pleasure of working with well-known brands such as:

FEEL FREE TO CLICK ON THE LINK!

- Samsung & SmartThings Germany / <https://aeotec-smarththings.myshopify.com/> , password: SmartThings2023
- Pops / <https://popss.de/>
- Grey Berlin / <https://en.greyberlin.de/>
- Felt Sportswear / <https://www.feltsportswear.com/>
- Gold Line Pets / <https://goldlinepets.com/>

and many more...

My portfolio includes over 60 websites, which are a testament to my skills and experience in this field.

- At Samsung & SmartThings Germany, I was responsible for designing and developing their e-commerce platform, which enabled them to reach a wider audience and increase their sales revenue.
- For Pops, a Ukrainian business expanding to Germany, I created a user-friendly and visually appealing website that showcased their products and services in the best possible way.
- At Grey Berlin, I worked on several projects, including the development of their online store, which increased their online sales and customer engagement.

My expertise in e-commerce development is not limited to the brands mentioned above. I have worked with many more clients and have always delivered high-quality results. I specialize in creating websites that are optimized for conversion and user experience. I use the latest technology and techniques to ensure that my clients' websites are fast, secure, and user-friendly.

Thank you for taking the time to review my portfolio. I would be happy to discuss your project requirements and provide you with a custom quote. Please feel free to contact me if you have any questions or would like to learn more about my services.

Best regards,

@sukicrafts
